In high recognition of their invaluable institutional support, outstanding commitment, and strategic sponsorship during the implementation of the "**CityMapper Externship: Urban Street Mapping Level**" initiative in Cameroon from **April 10 to May 10, 2026**. As a groundbreaking pilot project deployed under the global **UN Mappers Chapters initiative**, this program has achieved a profound international impact. Through their shared vision and alignment with the Sustainable Development Goals (SDGs) for urban innovation and youth empowerment, **IVIDES DATA** has stood out as a pivotal partner in driving open geospatial data production, fostering local capacity building, and strengthening sustainable humanitarian development across the worldwide OpenStreetMap ecosystem.
